

English Language Arts • Grade 5 • Claim 1 • Target 10

Grade 5

Claim 1

Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

Target 10

Word Meanings

Determine intended meanings of words including academic/tier 2 words, domain-specific (tier 3) words, and words with multiple meanings, based on context, word relationships (e.g., synonyms, antonyms), word structure (e.g., common Greek or Latin roots, affixes), or use of reference materials (e.g., dictionary), with primary focus on determining meaning based on context and the academic (tier 2) vocabulary common to complex texts in all disciplines.

Standards

L-4

Determine or clarify the meaning of unknown and multiple-meaning words and phrases based on *grade 5 reading and content*, choosing flexibly from a range of strategies.

L-4a

Use context (e.g., cause/effect relationships and comparisons in text) as a clue to the meaning of a word or phrase.

L-4b

Use common, grade-appropriate Greek and Latin affixes and roots as clues to the meaning of a word (e.g., *photograph*, *photosynthesis*).

L-4c

Consult reference materials (e.g., dictionaries, glossaries, thesauruses), both print and digital, to find the pronunciation and determine or clarify the precise meaning of key words and phrases.

L-5c

Use the relationship between particular words (e.g., synonyms, antonyms, homographs) to better understand each of the words.

RI-1

Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.

RI-4

Determine the meaning of general academic and domain-specific words and phrases in a text relevant to a *grade 5 topic or subject area*.

Clarifications

Targeted vocabulary words and phrases should be important to the text and worth assessing. The targeted vocabulary words and phrases should be **one to two** grade levels above testing grade. If the targeted word/phrase is used in a context that is different from what a student would normally encounter, it may be on grade level (e.g., state, factor). Answer choices need to be **on or below** grade level.

The vocabulary focus of this target is on determining meaning of tier 2 words based on context. Items focusing on antonyms and synonyms, Greek or Latin roots, affixes, and the use of resources should be limited. For a list of academic/tier 2 words, see Page 70 in the item specifications.

All items should require students to cite specific textual evidence to support inferences and conclusions drawn from the text(s).

Range Achievement Level Descriptors

Level 1

Level 1 students should be able to determine, with significant support (e.g., within highlighted text or a shorter passage) and in texts of low complexity, the intended meaning of a few common, grade-appropriate words, including academic words, domain-specific words, and words with multiple meanings based on context, word relationships (e.g., antonyms, synonyms), word structure (e.g., common Greek or Latin roots and affixes), or use of resources (e.g., dictionary, glossary), with primary focus on the academic vocabulary common to texts.

Level 2

Level 2 students should be able to determine, with some support and in texts of moderate complexity, the intended meaning of some common, grade-appropriate words, including academic words, domain-specific words, and words with multiple meanings based on context, word relationships (e.g., antonyms, synonyms), word structure (e.g., common Greek or Latin roots and affixes), or use of resources (e.g., dictionary, glossary), with primary focus on the academic vocabulary common to texts.

Level 3

Level 3 students should be able to adequately determine, in texts of moderate-to-high complexity, the intended meaning of common, grade-appropriate words, including academic words, domain-specific words, and words with multiple meanings based on context, word relationships (e.g., antonyms, synonyms), word structure (e.g., common Greek or Latin roots and affixes), or use of resources (e.g., dictionary, glossary), with primary focus on the academic vocabulary common to complex texts.

Level 4

Level 4 students should be able to thoroughly determine, in texts of unusually high complexity, the intended or precise meaning of most common, grade-appropriate words, including academic words, domain-specific words, and words with multiple meanings based on context, word relationships (e.g., antonyms, synonyms), word structure (e.g., common Greek or Latin roots and affixes), or use of resources (e.g., dictionary, glossary), with primary focus on the academic vocabulary common to complex texts.

Evidence Required

1. The student will determine the meaning of a word or phrase based on its context in an informational text.
 2. The student will determine the intended meaning of academic/tier 2 words and domain-specific/tier 3 words in an informational text.
 3. The student will use resources to determine the correct meaning of an unknown word or phrase in an informational text.
 4. The student will use synonyms or antonyms, Greek or Latin roots, or affixes to determine the correct meaning of an unknown word or phrase in an informational text.

Item Guidelines

Depth of Knowledge

R-DOK1

Level 1 requires students to receive or recite facts or to use simple skills or abilities. Oral reading that does not include analysis of the text as well as basic comprehension of a text is included. Items require only a shallow understanding of text presented and often consist of verbatim recall from text or simple understanding of a single word or phrase.

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Allowable Item Types

Multiple Choice, single correct response

Multi-Select, multiple correct response

Stimuli

Passages

Texts may be of low to high complexity at grade level; each text must include one or more words that are at grades 5–7 reading level, OR words that have nuanced meanings, OR words that have multiple meanings and are used differently in the text. Emphasis is placed on academic/tier 2 words. The target words must be important to the text and worthwhile assessing. The text must have clearly evident context that provides unambiguous support for the meaning of the targeted word or phrase.

Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text.

Dual-Text Stimuli

When a dual-text set contains one literary and one informational text, the literary text (text #1) is the primary focus, and the set of items must include items from the literary stimulus as well as items written across both texts. The informational text (text #2) **must only** be used as a foundational piece for the literary text, and no items can be written for **only** the informational text. If both texts are literary, items may be written to either or both. In all dual-text stimuli sets, between 25 and 40% of the items written across both texts.

When developing items from dual-text, Task Model 5 (short-text constructed-response-WR) should be written using the *Appropriate Stems for Dual-Text Stimuli* only to ensure students will have the opportunity to respond in writing to information from both texts. Between 25 and 40% of all other items written in the dual-text set should be written across texts.

The title of the each text should be included in the stem when more than one text is used. Dual-text is considered long text.

Accessibility

Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.

Target Evidence Statement

The student will determine the meaning of a word or phrase based on its context in an informational text.

The student will determine the intended meaning of academic/tier 2 words and domain-specific/tier 3 words in an informational text.

The student will use resources to determine the correct meaning of an unknown word or phrase in an informational text.

The student will use synonyms or antonyms, Greek or Latin roots, or affixes to determine the correct meaning of an unknown word or phrase in an informational text.

Task Description

The **item stem** will pose a question about the meaning of a targeted word or phrase in the passage. The sentence or sentences in which the targeted word is found are excerpted and need to include enough context to correctly determine meaning. More than one sentence may be necessary.

Formatting note: in excerpts, both targeted words and phrases are underlined. In stems, targeted words are underlined; targeted phrases are placed within quotation marks.

The **answer choices** will present four options of similar structure using vocabulary on or below grade level. The correct answer will be a clearly discernible and correct meaning of the word or phrase. The **distractors** will be meanings that may be plausible to students who 1) use another meaning of the word/phrase without considering context, 2) misinterpret the word, phrase, and/or context, or 3) use the wrong context to determine the meaning.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible **distractor**.

Appropriate Stems

The **item stem** will pose a question about the meaning of a targeted word or phrase in the passage. The sentence or sentences in which the targeted word is found are excerpted and need to include enough context to correctly determine meaning. More than one sentence may be necessary. The item stem will prompt the student to choose **two** answers.

Formatting note: In excerpts, both targeted words and phrases are underlined. In stems, targeted words are underlined; targeted phrases are placed within quotation marks.

The **answer choices** will present five or six options of similar structure using vocabulary on or below grade level. Of the options, there will be **two** correct answers. The correct answers will be a clearly discernible and correct meaning of the word or phrase. The **distractors** will be meanings that may be plausible to students who 1) use another meaning of the word/phrase without considering context, 2) misinterpret the word, phrase, and/or context, or 3) use the wrong context to determine the meaning.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

Target Evidence Statement

The student will determine the meaning of a word or phrase based on its context in an informational text.

The student will determine the intended meaning of academic/tier 2 words and domain-specific/tier 3 words in an informational text.

The student will use resources to determine the correct meaning of an unknown word or phrase in an informational text.

Task Description

The **item stem** will require students to select the word(s)/phrase(s) from a sentence(s), set(s) of sentences, line(s), or paragraph(s) that best match a given dictionary entry or paraphrased definition.

Formatting note: When excerpts are used, both targeted words and phrases are underlined. In stems, targeted words are underlined; targeted phrases are placed within quotation marks.

The **answer choices** will be five to eight selectable and underlined words or phrases from an excerpted selection of text. The excerpted text will be whole, continuous, and consecutive sections taken directly from the text. There will be only **one** correct response. The **distractors** will be selectable words or phrases on or below grade level and plausible to students who 1) do not read the text closely, 2) do not understand the definition, concept, or idea presented, or 3) use context for the wrong meaning of the target word/phrase.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

NOTE: If there are too many defensible options (check every possibility), do not use this item type; use Multiple Choice (Task Model 1) or Multiple Select (Task Model 2).
