

English Language Arts • Grade 5 • Claim 1 • Target 9

Grade 5

Claim 1

Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

Target 9

Central Ideas

Identify or determine a main idea and the key details that support it, or summarize key details using evidence from the text.

Standards

RI-1

Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.

RI-2

Determine two or more main ideas of a text and explain how they are supported by key details; summarize the text.

Clarifications

Items may assess a central idea and the details that support it in the text.

Items will not ask students to summarize the entire text.

All items should require students to cite specific textual evidence to support ideas drawn from the text(s).

Range Achievement Level Descriptors

Level 1

Level 1 students should be able to, with significant support (e.g., highlighted text), summarize central ideas, key events, procedures, or topics and subtopics in texts of low complexity.

Level 2

Level 2 students should be able to, with minimal support (e.g., highlighted text), summarize central ideas, key events, procedures, or topics and subtopics in texts of moderate complexity.

Level 3

Level 3 students should be able to provide adequate summaries of central ideas, key events, procedures, or topics and subtopics in texts of moderate-to-high complexity.

Level 4

Level 4 students should be able to provide thorough summaries of central ideas, key events, procedures, or topics and subtopics in texts of unusually high complexity.

Evidence Required

1. The student will determine a main idea in a text using supporting evidence.
 2. The student will summarize key details in a text using supporting evidence.
-

Item Guidelines

Depth of Knowledge

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

Allowable Item Types

Multiple Choice, single correct response

Multi-Select, multiple correct response

Evidence-based Select Response, two-part multiple choice response (EBSR);

Hot Text, select text

Short Text, constructed response (WR)

Stimuli

Passages

Texts will develop one or more main idea(s), key events, and/or procedure(s).

Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text types.

Dual-Text Stimuli

When a dual-text set contains one literary and one informational text, the informational text (text #1) is the primary focus, and the set of items must include items from the informational stimulus as well as items written across both texts. The literary text (text #2) must only be used as a background piece for informational text, and no items can be written for only the literary text. If both texts are informational, items may be written to either or both texts. All dual-text stimuli sets should contain between 25-40% items written across both texts.

When developing items from a dual-text set, Task Model 5 (short text constructed response-WR) should be written using the *Appropriate Stems for Dual-Text Stimuli only* to ensure students will have the opportunity to respond in writing to information from both texts. Between 25-40% of all other items written in the dual-text set should be written across both texts.

The title of each text should be included in the stem when more than one text is used. Dual-text is considered long text.

Accessibility

Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.

Task Model 1

Allowable Item Types

Multiple Choice, single correct response

Depth of Knowledge

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will determine a main idea in a text using supporting evidence.

The student will summarize key details in a text using supporting evidence.

Task Description

The **item stem** will pose a question that requires the student to 1) determine a main idea, 2) identify a detail that supports a main idea, 3) identify a statement summarizing the key event(s) or a procedure in a portion of the text, or 4) identify a key detail that is missing from a text summary.

The **answer choices** will present four options of similar structure. The correct answer will be clearly discernible and correct. The distractors will be plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details. The **distractors** should not contain sequencing errors or other errors that reflect DOK 1 skills.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

Appropriate Stems

- Which sentence best [shows/tells/describes] the main idea of the passage?
- Which sentence best [shows/tells/describes] the main problem in the passage?
- Which sentence best [shows/tells/describes] the author's [message/main idea] in [provide section of the passage]?
- Read the [sentences/paragraph(s)].
[excerpt from text]
What is the main idea of the [sentences/paragraph(s)]?
- Which [sentence/detail] from the passage best [shows/tells/describes] the main idea?
- Which sentence best summarizes [the first paragraph/introduction]?
- Read the [sentences/paragraph(s)].
[excerpt from text]
Which sentence best summarizes [the sentences/paragraph(s)]?
- Which sentence is the best summary of what happens [when/after/during] [provide text event or procedure]?
- Read this summary.
[provide text summary of key events/ideas or a procedure; one key event/idea/detail is missing]
Which [key event/idea/detail] is missing from the summary? Note: The correct answer should be a pivotal key event or idea.
- Which sentence best summarizes the passage?

Appropriate Stems for Dual-Stimuli

- What main idea can be found in both [title text #1] and [title text #2]? NOTE: This stem can only be used with two informational passages.
- What main idea from [title text #1 name] is made clear by the description of [provide idea/event] in [title text #2]?

Scoring Rules

Correct response: 1 point; Incorrect response: 0 points

Task Model 2

Allowable Item Types

Multi-Select, multiple correct response

Depth of Knowledge

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will determine a main idea in a text using supporting evidence.

The student will summarize key details in a text using supporting evidence.

Task Description

The **item stem** will prompt the student to 1) identify main ideas, or 2) select the statements that should be included in a summary of key events or ideas in the text or in a portion of the text. The item stem will prompt the student to choose two options.

The **answer choices** will present five to six options of similar structure. Of the options, there will be two correct answers. The correct answers will be relatively short statements that identify the main ideas presented in the text or statements that should be included in the text summary. The **distractors** will be relatively short statements that are not main ideas or do not belong because they 1) include an idea or event that reflects a misinterpretation of text details or 2) include one or more ideas or events that are not key text details. The distractors will not contain details of such insignificance that the options are implausible.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

Appropriate Stems

- Choose two sentences that best identify the main ideas presented in the passage.
- Choose two sentences that should be included in a summary of [the passage/section of the passage].

Scoring Rules

All correct selections: 1 point; All other responses: 0 points

Task Model 3

Allowable Item Types

Evidence-based Select Response, two-part multiple choice response (EBSR);

Depth of Knowledge

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will determine a main idea in a text using supporting evidence.

Task Description

This item has two parts. The **item stem of PART A** will pose a question that requires the student to determine a central idea of the text.

The **answer choices of PART A** will present four options of similar structure. The correct answer will be a clearly discernible and correct description of a central idea of the text. The distractors will be statements that may be plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details.

The **item stem of PART B** will prompt the selection of detail(s) from the text that provide evidence for the identification the student made in PART A.

The **answer choices of PART B** will present four options. The correct answer will be a text detail that supports the central idea identified in Part A. The distractors will be text details that provide plausible support for the distractors in PART A.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

NOTE: Avoid answer choices in the two parts of the item that obviously correspond to one another such that selecting a particular answer choice in Part A directly determines which answer choice will be selected in Part B. Thus, some or all answer choices in Part B should provide plausible support for more than one answer choice in Part A.

NOTE: When using an excerpt in Part A, answer choices for Part B must come entirely from the excerpt or entirely from elsewhere in the text; they cannot be a combination of the two.

Appropriate Stems

Lead-In: The following question has two parts. First, answer part A. Then, answer part B.

Appropriate Stems for PART A:

- Which sentence best [shows/tells/describes] the main idea of the passage?
- Which sentence best [shows/tells/describes] the main problem in the passage?
- Which sentence best [shows/tells/describes] the author's [message/main idea] in [section of the passage]?
- Read the [sentences/paragraph(s)].
[excerpt from text]
What is the main idea of the [sentences/paragraph(s)]?

Appropriate Stems for PART B:

- Which [sentence/detail] from the passage best [supports/is an example of] your answer in part A?

Appropriate Stems for Dual-Stimuli

PART A:

- What main idea can be found in both [title text #1] and [title text #2]? NOTE: This stem can only be used with two informational passages.
- What main idea from [title text #1] is made clear by the description of [provide idea/event] in [title text #2]?

PART B:

- Which [sentence/detail] from [title text #1] best [supports/is an example of] your answer in part A?
- Which [sentences/details] from [title text #1] and [title text #2] best [support/are an example of] your answer in part A? NOTE: This stem can only be used with two informational passages.

Scoring Rules

Correct response for both parts: 1 point; Incorrect response for either or both parts: 0 points

Task Model 4

Allowable Item Types

Hot Text, select text

Depth of Knowledge

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will determine a main idea in a text using supporting evidence.

The student will summarize key details in a text using supporting evidence.

Task Description

The **item stem** will pose a question that requires the student to 1) select detail(s) that support a main idea or 2) identify a section of the text that contains a key event, main idea, or key detail that is missing from a summary of the text. The item stem will prompt the student to choose [one/two] options.

The **answer choices** will be selectable sentences, paragraphs, or sections from the text, or other selectable text. The text selection will be whole, continuous, and consecutive sections taken directly from the text, or other text provided.

Sentences can be grouped into multi-sentence options. There will be one or two correct answers. The correct answer(s) will be the selectable sections of text that reveal a main idea of the text or contain(s) the missing key event(s). The **distractors** will be lines, sentences, or paragraphs that are plausible to students who 1) misinterpret details in the text or 2) make erroneous analyses about the significance of ideas and details.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

NOTE: If there are too many defensible options (check every possibility), do not use this item type; use Multiple Choice (Task Model 1) or Multiple Select (Task Model 2).

Appropriate Stems

- Click on [one/two] [sentence(s)/paragraph(s)/section(s) of the text] that best [shows/tells/describes] the main idea of [the passage/section of the passage].
- Read this summary of [the passage/section of the passage]. [provide text summary of key events/ideas or a procedure; one key event/idea/detail is missing]
A [key event/idea/detail] is missing from the summary. Click on the [sentence/paragraph/section of passage] that includes the missing [event/idea/detail].
- Click on [one/two] [key details/events] that should be included in a summary of the passage.

Scoring Rules

Correct response: 1 point; Incorrect response: 0 points

Task Model 5

Allowable Item Types

Short Text, constructed response (WR)

Depth of Knowledge

R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

Target Evidence Statement

The student will determine a main idea in a text using supporting evidence.

The student will summarize key details in a text using supporting evidence.

Task Description

The **item stem** will prompt the student to 1) determine a main idea of the text and support their response with evidence from the text or 2) summarize key events from a section of the text.

Short Text (constructed response) items are only written to long stimuli and will not ask students to summarize the entire text.

Short text items must require students to cite specific textual evidence to support ideas drawn from the text(s).

Examples will reflect common student responses.

Appropriate Stems

- Determine the main idea of the passage. Explain using key details from the passage to support your answer.
- What is the main idea of the passage? Explain using key details from the passage to support your answer.
- What is the author's [message/point] about [provide text detail that relates to the central idea]? Explain using key ideas from the passage to support your answer.
- Read the [paragraph/section of the text].
[excerpt from text]
What is the author's main idea in this [paragraph/section]? Explain using key details from the passage to support your answer.
- In the [text/section of the text], the author states [provide text excerpt]. Explain how this statement supports the main idea of the passage using key details from the text.
- Summarize the [first paragraph/introduction]. Use key [details/events] from the passage in your summary.
- Summarize what happens [after/during] [provide text event]. Use key [details/events] from the passage in your summary.

Appropriate Stems for Dual-Stimuli

- What main idea can be found in both [title text #1] and [title text#2]? Explain using key details from both passages to support your answer. NOTE: This stem can only be used with two informational passages.
- What main idea from [title text #1] is made clear by the description of [provide idea/event] in [title text #2]? Explain using details from [title text #1] to support your answer.

Scoring Rules

Items are worth a possible two points (0,1,2) and responses are hand-scored. Rubrics will be item-specific.
