

## English Language Arts • Grade 5 • Claim 1 • Target 11

---

### Grade 5

#### Claim 1

##### Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

#### Target 11

##### Reasoning & Evidence

Make an inference or draw a conclusion about a text OR make inferences or draw conclusions in order to compare texts (e.g., relationships or interactions between individuals, events, ideas, or concepts; points of view; use of information from multiple print; reasoning and evidence to support points) and use supporting evidence as justification/explanation.

---

### Standards

#### RI-1

Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.

#### RI-3

Explain the relationships or interactions between two or more individuals, events, ideas, or concepts in a historical, scientific, or technical text based on specific information in the text.

#### RI-6

Analyze multiple accounts of the same event or topic, noting important similarities and differences in the point of view they represent.

#### RI-7

Draw on information from multiple print or digital sources, demonstrating the ability to locate an answer to a question quickly or to solve a problem efficiently.

#### RI-8

Explain how an author uses reasons and evidence to support particular points in a text, identifying which reasons and evidence support which point(s).

#### RI-9

Integrate information from several texts on the same topic in order to write or speak about the subject knowledgeably.

---

### Clarifications

Items require **students** to analyze a text (or texts) by making inferences or drawing conclusions about relationships between individuals, events, ideas, or concepts; the author's line of reasoning or point of view, etc. Additionally, students will apply reasoning to justify that analysis by identifying supporting evidence within the text(s).

All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).

---

## Range Achievement Level Descriptors

### Level 1

Level 1 students should be able to minimally use, with significant support (e.g., explicit directions, step-by-step support), supporting evidence to justify interpretations of information presented or how information is integrated (author's reasoning; interactions between events, concepts, or ideas) in texts of low complexity

### Level 2

Level 2 students should be able to partially use supporting evidence to justify interpretations of information presented or how information is integrated (author's reasoning; interactions between events, concepts, or ideas) in texts of moderate complexity.

### Level 3

Level 3 students should be able to use adequate supporting evidence to justify interpretations of information presented or how information is integrated (author's reasoning; interactions between events, concepts, or ideas) in texts of moderate-to-high complexity.

### Level 4

Level 4 students should be able to use thorough and insightful supporting evidence to justify interpretations of information presented or how information is integrated (author's reasoning; interactions between events, concepts, or ideas) in texts of unusually high complexity.

---

## Evidence Required

1. The student will make an inference about an informational text or texts and identify evidence within the text or texts that support that inference.

## Item Guidelines

### Depth of Knowledge

#### R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

### Allowable Item Types

Evidence-based Select Response, two-part multiple choice response (EBSR);

Hot Text, select text

Short Text, constructed response (WR)

### Stimuli

#### Passages

Each text must include explicitly and implicitly stated details that can be used to make inferences and provide conclusions.

Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on informational text types.

#### Dual-Text Stimuli

When a dual-text set contains one literary and one informational text, the informational text (text #1) is the primary focus, and the set of items must include items from the informational stimulus as well as items written across both texts. The literary text (text #2) **must only** be used as a background piece for informational text, and no items can be written for **only** the literary text. If both texts are informational, items may be written to either or both texts. All dual-text stimuli sets should contain between 25-40% items written across both texts.

When developing items from a dual-text set, Task Model 5 (short text constructed response-WR) should be written using the *Appropriate Stems for Dual-Text Stimuli* only to ensure students will have the opportunity to respond in writing to information from both texts. Between 25-40% of all other items written in the dual-text set should be written across both texts.

The title of each text should be included in the stem when more than one text is used. Dual-text is considered long text.

### Accessibility

Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.

---

## Task Model 1

### Allowable Item Types

Evidence-based Select Response, two-part multiple choice response (EBSR);

### Depth of Knowledge

#### R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

### Target Evidence Statement

The student will make an inference about an informational text or texts and identify evidence within the text or texts that support that inference.

### Task Description

This item has two parts. The **item stem of PART A** will prompt the selection of a statement that requires the student to make an inference OR draw a conclusion about the text.

The **answer choices of PART A** will present four options of similar structure. The correct answer will be a statement that reflects an inference made or conclusion drawn about the text. The distractors will be statements that would be plausible to students who 1) misinterpret details in the text, 2) make erroneous inferences OR conclusions about the text, OR 3) apply faulty reasoning about the text.

The **item stem of PART B** will pose a question about the details that support the inference made OR conclusion drawn in PART A. This part of the item will provide students the opportunity to identify the textual evidence used to draw the conclusion OR make the inference.

The **answer choices of PART B** will present four options of a line or lines taken directly from the text. The correct answer will be a line or lines that support the inference made OR conclusion drawn. The distractors will be a line or lines taken directly from the text that 1) support an erroneous inference OR conclusion OR 2) do not directly support the inference made OR conclusion drawn.

**Distractors** will reflect common student errors.

**Rationales** should state the justification for the type of plausible distractor.

**NOTE:** Avoid answer choices in the two parts of the item that obviously correspond to one another such that selecting a particular answer choice in Part A directly determines which answer choice will be selected in Part B. Thus, some or all answer choices in Part B should provide plausible support for more than one answer choice in Part A.

**NOTE:** When using an excerpt in Part A, answer choices for Part B must come entirely from the excerpt or entirely from elsewhere in the text; they cannot be a combination of the two.

### Appropriate Stems

**Lead-in:** This question has two parts. First, answer part A. Then, answer part B.

#### Appropriate Stems for PART A:

- Which of these inferences about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose] is supported by the passage?
- What inference can be made about the [provide example of author's use of information/point of view/purpose]?
- What inference can be made about the author's opinion of [provide idea/concept in the text]?
- Which of these conclusions about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose] is supported by the passage?
- What conclusion can be drawn about the [provide example of author's use of information/point of view/purpose]?
- What conclusion can be drawn about the author's opinion of [provide idea/concept in the text]?
- What did the author **most likely** mean by using [provide target detail] in the text?
- Read the [sentence(s)/paragraph(s)/section(s)].  
[excerpted text]  
What did the author **most likely** mean by using [provide target detail] in the text?

#### Appropriate Stems for PART B:

- Which [sentence(s)/paragraph(s)/section(s)] from the passage **best** support(s) your answer in part A?
- Which [sentence(s)/paragraph(s)/section(s)] from the passage **best** show(s) the [inference made/conclusion drawn] in part A?

## Appropriate Stems for Dual-Stimuli

### PART A:

- Read the [sentence(s)/paragraph(s)/section(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what inference can be made/what can a reader infer] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/point of view/purpose] in [title text #1]?
- Read the [sentence(s)/paragraph(s)/section(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what conclusion can be drawn/what can a reader conclude] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/point of view/purpose] in [title text #1]?

### PART B:

- Which [sentence(s)/paragraph(s)/section(s)] from [title text #1] **best** support(s) your answer in part A?

## Scoring Rules

Correct response for both parts: 1 point; Incorrect response for either or both parts: 0 points

---

## Task Model 2

### Allowable Item Types

Hot Text, select text

### Depth of Knowledge

#### R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

### Target Evidence Statement

The student will make an inference about an informational text or texts and identify evidence within the text or texts that support that inference.

### Task Description

This item has two parts. The **item stem of PART A** will prompt the selection of a statement that requires the student to make an inference OR draw a conclusion about the text.

The **answer choices of PART A** will present four options of similar structure. The correct answer will be a statement that reflects an inference made or conclusion drawn about the text. The distractors will be statements that would be plausible to students who 1) misinterpret details in the text, 2) make erroneous inferences or conclusions about the text, OR 3) apply faulty reasoning about the text.

The **item stem of PART B** will prompt the selection of details from the text that support the inference made OR conclusion drawn in PART A. The part of the item will provide students the opportunity to identify the textual evidence used to make the inference or draw the conclusion.

The **answer choices of PART B** will be selectable sentences, paragraphs, or sections from the text, or other selectable text. The text selection will be whole, continuous, and consecutive sections taken directly from the text, or other text provided. Sentences can be grouped into multi-sentence options. There will be **one** correct answer. The correct answer will be the selectable sections of text that provide support for the inference made or conclusion drawn. The distractors will be details that 1) support an erroneous inference OR conclusion OR 2) do not directly support the inference made or conclusion drawn.

**Distractors** will reflect common student errors.

**Rationales** should state the justification for the type of plausible distractor.

### Appropriate Stems

**Lead-in:** This question has two parts. First, answer part A. Then, answer part B.

#### Appropriate Stems for PART A:

- Click on the statement that **best** provides an inference about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose] that is supported by the passage.
- Click on the statement that **best** provides an inference that can be made about the author's opinion of [provide idea/concept in the text].
- Click on the statement that **best** provides a conclusion that can be drawn about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose].
- Click on the statement that **best** provides a conclusion that can be drawn about the author's opinion of [provide idea/concept in the text].
- Click on the statement that **best** describes what the author **most likely** meant by using [provide target detail] in the text.

#### Appropriate Stems for PART B:

- Click the [sentence(s)/section(s)/paragraph(s)] from the passage that **best** support(s) your answer in part A. Choose **one** option.

### Appropriate Stems for Dual-Stimuli

#### PART A:

- Read the [sentence(s)/section(s)/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what inference can be made/what can a reader infer] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose] in [text #1 name]?
- Read the [sentence(s)/section(s)/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what conclusion can be drawn/what can a reader conclude] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/author's use of information/point of view/purpose] in [title text #1]?

**PART B:**

- Click on the [sentence(s)/section(s)/paragraph(s)] from [text #1 name] that **best** support(s) your answer in part A.

**Scoring Rules**

Correct response for both parts: 1 point; Incorrect response for either or both parts: 0 points

---

## Task Model 3

### Allowable Item Types

Short Text, constructed response (WR)

### Depth of Knowledge

#### R-DOK3

Deep knowledge becomes more of a focus at Level 3. Students are encouraged to go beyond the text; however, they are still required to show understanding of the ideas in the text. Students may be encouraged to explain, generalize, or connect ideas. Standards and items at Level 3 involve reasoning and planning. Students must be able to support their thinking. Items may involve abstract theme identification, inference across an entire passage, or students' application of prior knowledge. Items may also involve more superficial connections between texts.

### Target Evidence Statement

The student will make an inference about an informational text or texts and identify evidence within the text or texts that support that inference.

### Task Description

The item will prompt the student to make an inference OR draw a conclusion about events, ideas, concepts, procedures or point of view etc., in the text AND support that analysis with details from the text.

The **item stem** will prompt the student to 1) make an inference about the text and support their response with evidence from the text or 2) draw a conclusion from the text and support their response with evidence from the text.

Short text items require students to cite specific textual evidence to support ideas drawn from the text(s).

Note: Constructed Response (Short Text) items will be written to long informational passages.

**Examples** will reflect common student responses.

### Appropriate Stems

- What inference can be made about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/purpose]? Explain using key evidence from the passage to support your answer.
- What inference can be made about the author's opinion about [provide idea/concept in the text]? Explain using key evidence from the passage to support your answer.
- What conclusion can be drawn about the [provide example of relationships or interactions between individuals, events, ideas, or concepts/author's use of information/purpose]? Explain using key evidence from the passage to support your answer.
- What conclusion can be drawn about the author's opinion about [provide idea/concept in the text]? Explain using key evidence from the passage to support your answer.
- What did the author **most likely** mean by using [provide target detail] in the text? Explain using key evidence from the passage to support your answer.
- Based on the passage, [what conclusion can be drawn/what can a reader conclude] about [the author/the speaker/the narrator/or provide individual's name]'s [thoughts/beliefs] about [provide individual's name/provide information about individual/idea/event in the text]? Explain using key evidence from the passage to support your answer.
- Based on the passage, [what inference can be made about/what can a reader infer] about [the author/the speaker/the narrator/or provide individual's name]'s [thoughts/beliefs] about [provide individual's name/provide information about individual/idea/event in the text]? Explain using key evidence from the passage to support your answer.

### Appropriate Stems for Dual-Stimuli

- Read the [sentence(s)/section(s)/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what inference can be made/what can a reader infer] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/author's use of information/purpose] in [title text #1]? Explain using key evidence from [title text #1/both passages] to support your answer.
- Read the [sentence(s)/section(s)/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what conclusion can be drawn/what can a reader conclude] about [provide example of the relationships or interactions between individuals, events, ideas, or concepts/author's use of information/purpose] in [text #1 name]? Explain using key evidence from [title text #1/both passages] to support your answer.
- Read the [sentence(s)/line(s)/set of lines/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what conclusion can be drawn/what can a reader conclude] about [the author/the speaker/the narrator/or

provide individual's name]'s [thoughts/beliefs] about [provide individual's name/provide information about individual/idea/event] in [title text #1]? Explain using key evidence from [title text #1/both passages] to support your answer.

- Read the [sentence(s)/line(s)/set of lines/paragraph(s)] from [title text #2].  
[excerpt from text]  
Based on this information, [what inference can be made/what can a reader infer] about [the author/the speaker/the narrator/or provide individual's name]'s [thoughts/beliefs] about [provide individual's name/provide information about individual/idea/event] in [title text #1]? Explain using key evidence from [title text #1/both passages] to support your answer.

## Scoring Rules

Items are worth a possible two points (0,1,2) and responses are hand-scored. Rubrics will be item-specific.

---
