

English Language Arts • Grade 5 • Claim 1 • Target 1

Grade 5

Claim 1

Reading

Students can read closely and analytically to comprehend a range of increasingly complex literary and informational texts.

Target 1

Key Details

Given an inference or conclusion, use explicit details and implicit information from the text to support the inference or conclusion provided.

Standards

RL-1

Quote accurately from a text when explaining what the text says explicitly and when drawing inferences from the text.

Clarifications

Students identify/select appropriate supporting text evidence for one or more GIVEN inferences or conclusions. The item stem must state an inference or conclusion drawn from the text, not merely paraphrase or quote words directly from the text.

Note: In RL Target 4, students supply both the inference/conclusion AND the evidence.

All items are text-dependent. No item is answerable without reading the text.

All items should require students to cite specific textual evidence to support conclusions drawn from the text(s).

Range Achievement Level Descriptors

Level 1

Level 1 students should be able to minimally identify details and information to support answers regarding or inferences in texts of low complexity.

Level 2

Level 2 students should be able to partially identify some details and information from the text to support answers regarding or inferences made in texts of moderate complexity.

Level 3

Level 3 students should be able to adequately identify explicit details and implicit information to support answers regarding or inferences in texts of moderate-to-high complexity.

Level 4

Level 4 students should be able to thoroughly identify explicit details and implicit information to support answers regarding or inferences in texts of unusually high complexity.

Evidence Required

1. The student will identify text evidence (explicit details and/or implicit information) to support a GIVEN inference or conclusion based on the text.
-

Item Guidelines

Depth of Knowledge

R-DOK1

Level 1 requires students to receive or recite facts or to use simple skills or abilities. Oral reading that does not include analysis of the text as well as basic comprehension of a text is included. Items require only a shallow understanding of text presented and often consist of verbatim recall from text or simple understanding of a single word or phrase.

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Allowable Item Types

Multiple Choice, single correct response

Multi-Select, multiple correct response

Hot Text, select text

Stimuli

Passages

Stimuli are texts of literary fiction. Texts will include sufficient detail, both stated and implied, to allow for the formation of inferences or conclusions.

Refer to Smarter Balanced Assessment Consortium: English Language Arts & Literacy Computer Adaptive Test (CAT) and Performance Task (PT) Stimulus Specifications for more information on literary text types.

Dual-Text Stimuli

When a dual-text set contains one literary and one informational text, the literary text (text #1) is the primary focus, and the set of items must include items from the literary stimulus as well as items written across both texts. The informational text (text #2) **must only** be used as a foundational piece for the literary text, and no items can be written for **only** the informational text. If both texts are literary, items may be written to either or both. In all dual-text stimuli sets, between 25 and 40% of the items should be written across both texts.

When developing items from dual texts, Task Model 5 (short-text constructed-response-WR) should be written using the *Appropriate Stems for Dual-Text Stimuli* only to ensure students will have the opportunity to respond in **writing** to information from both texts. Between 25 and 40% of all other items written in the dual-text set should be written across both texts.

The title of the each text should be included in the stem when more than one text is used. Dual text is considered long text.

Accessibility

Refer to the Smarter Balanced Assessment Consortium: Usability, Accessibility, and Accommodations Guidelines for information on accessibility.

Task Model 1

Allowable Item Types

Multiple Choice, single correct response

Depth of Knowledge

R-DOK1

Level 1 requires students to receive or recite facts or to use simple skills or abilities. Oral reading that does not include analysis of the text as well as basic comprehension of a text is included. Items require only a shallow understanding of text presented and often consist of verbatim recall from text or simple understanding of a single word or phrase.

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will identify text evidence (explicit details and/or implicit information) to support a GIVEN inference or conclusion based on the text.

Task Description

The **item stem** will make an inference or draw a conclusion based on the text and pose a question that requires the student to select the text evidence that supports the given inference or conclusion.

The **answer choices** will present four options. Options that are paraphrased will be of similar structure. The correct answer will be a direct excerpt or a paraphrase of the text that provides support for the given inference or conclusion. The **distractors** will be direct excerpts or paraphrases of text content that may be plausible to students who 1) misinterpret details in the text, 2) make erroneous inferences or judgments about the given inference/conclusion or about the text, OR 3) apply faulty reasoning about the text.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

Appropriate Stems

- Which [detail/sentence/line] from the passage **best** [supports/shows] [provide inference or conclusion based on the passage]?
- [Provide inference or conclusion based on the passage]. Which [detail/sentence/line] from the passage **best** supports this [inference/conclusion] OR **best** shows [provide the inference or conclusion]?
- The reader can [infer/conclude] [inference or conclusion based on the passage]. Which [detail/sentence/line] from the passage **best** supports this [inference/conclusion] OR **best** shows [provide the inference/conclusion]?
- The [author/narrator] [infers/concludes] that [inference/conclusion based on the passage]. Which [detail/sentence/line] from the passage **best** supports this [inference/conclusion] OR **best** shows [provide inference/conclusion]?
- Read this [inference/conclusion].
[Provide inference or conclusion based on the passage].
Which [detail/sentence/line] from the passage **best** supports this [inference/conclusion] OR **best** shows [provide the inference or conclusion]?

Appropriate Stems for Dual-Stimuli

- Which [detail/sentence/line] from [title text #1] **best** shows that [inference or conclusion based on both passages] is true of **both** passages? **NOTE:** This stem is only used with two **literary** passages.
- Based on the information in [title text #2], [inference or conclusion based on text #2]. Which [detail/sentence/line] from [title text #1] **best** supports the same idea?

Scoring Rules

Correct response: 1 point; Incorrect response: 0 points

Task Model 2

Allowable Item Types

Multi-Select, multiple correct response

Depth of Knowledge

R-DOK1

Level 1 requires students to receive or recite facts or to use simple skills or abilities. Oral reading that does not include analysis of the text as well as basic comprehension of a text is included. Items require only a shallow understanding of text presented and often consist of verbatim recall from text or simple understanding of a single word or phrase.

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will identify text evidence (explicit details and/or implicit information) to support a GIVEN inference or conclusion based on the text.

Task Description

The **item stem** will make an inference or draw a conclusion based on the text and pose a question that requires the student to select the text evidence that supports the given inference or conclusion. The item stem will prompt students to choose **two** answers.

The **answer choices** will present **five** or **six** options. Options that are paraphrased will be of similar structure. Of the options, there will be **two** correct answers. Each correct answer will be a direct excerpt or a paraphrase of the text that provides support for the given inference or conclusion. The **distractors** will be direct excerpts or paraphrases of text content that may be plausible to students who 1) misinterpret details in the text, 2) make erroneous inferences or judgments about the given inference/conclusion or about the text, OR 3) apply faulty reasoning about the text.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

Appropriate Stems

- Choose **two** [details/sentences/lines] from the passage that **best** support the [provide inference/conclusion] that [provide inference or conclusion based on the passage].
- Which [details/sentences/lines] from the passage **best** support [provide inference or conclusion based on the passage]? Select **two** answers.
- [Provide inference or conclusion based on the passage]. Which [details/sentences/lines] from the passage **best** support this [inference/conclusion] OR **best** show [provide the inference or conclusion]? Select **two** answers.
- The reader can [infer/conclude] [provide inference/conclusion based on the passage]. Which [details/sentences/lines] from the passage **best** support this [inference/conclusion] OR **best** show [provide the inference or conclusion]? Select **two** answers.
- The [author/narrator] [infers/concludes] that [provide inference/conclusion based on the passage]. Which [evidence/details/sentences/lines] from the passage **best** support this [inference/conclusion] OR **best** show [provide the inference/conclusion]? Select **two** answers.
- Read this [inference/conclusion].
[Provide inference or conclusion based on the text].
Which [details/sentences/lines] from the passage **best** support this [inference/conclusion] OR **best** show [provide the inference or conclusion]? Select **two** answers.

Appropriate Stems for Dual-Stimuli

- Which [details/sentences/lines] from [text #1 name] **best** show that [provide inference or conclusion based on the two passages] is true of **both** passages? Select **two** answers. NOTE: This stem can only be used with two literary passages.
- Based on the information in [title text #2], [provide inference or conclusion based on passage #2]. Which [details/sentences/lines] from [text #1 name] **best** support the same idea? Select **two** answers.

Scoring Rules

All responses correct: 1 point; Any other response combination: 0 points

Task Model 3

Allowable Item Types

Hot Text, select text

Depth of Knowledge

R-DOK1

Level 1 requires students to receive or recite facts or to use simple skills or abilities. Oral reading that does not include analysis of the text as well as basic comprehension of a text is included. Items require only a shallow understanding of text presented and often consist of verbatim recall from text or simple understanding of a single word or phrase.

R-DOK2

Level 2 includes the engagement of some mental processing beyond recalling or reproducing a response; it requires both comprehension and subsequent processing of text or portions of text. Intersentence analysis of inference is required. Some important concepts are covered but not in a complex way. Standards and items at this level may include words such as summarize, interpret, infer, classify, organize, collect, display, compare, and determine whether fact or opinion. Literal main ideas are stressed. A Level 2 assessment item may require students to apply some of the skills and concepts that are covered in Level 1.

Target Evidence Statement

The student will identify text evidence (explicit details and/or implicit information) to support a GIVEN inference or conclusion based on the text.

Task Description

The **item stem** will make an inference or draw a conclusion based on the text and pose a question that requires the student to select the text evidence that supports the given inference or conclusion. The item stem will indicate [one/two] options.

The **answer choices** will be selectable sentences, paragraphs, or sections from the text, or other selectable text. The text selection will be whole, continuous, and consecutive sections taken directly from the text, or other text provided. Sentences can be grouped into multi-sentence options. There will be **one or two** correct answers. The correct answer(s) will be the selectable sections of text that provide support for the given inference or conclusion. If there is more than one correct response, then the item stem will state the number of correct responses. The **distractors** will be other selectable sections of text that may be plausible to students who 1) misinterpret details in the text, 2) make erroneous inferences or judgments about the given inference/conclusion or about the text, OR 3) apply faulty reasoning about the text.

Distractors will reflect common student errors.

Rationales should state the justification for the type of plausible distractor.

NOTE: If there are too many defensible options (check every possibility), do not use this item type; use Multiple Choice (Task Model 1) or Multiple Select (Task Model 2).
